

# Stuart Weidie

---

Chairman, Autogas for America

President, Alliance AutoGas

# Autogas Benefits

---

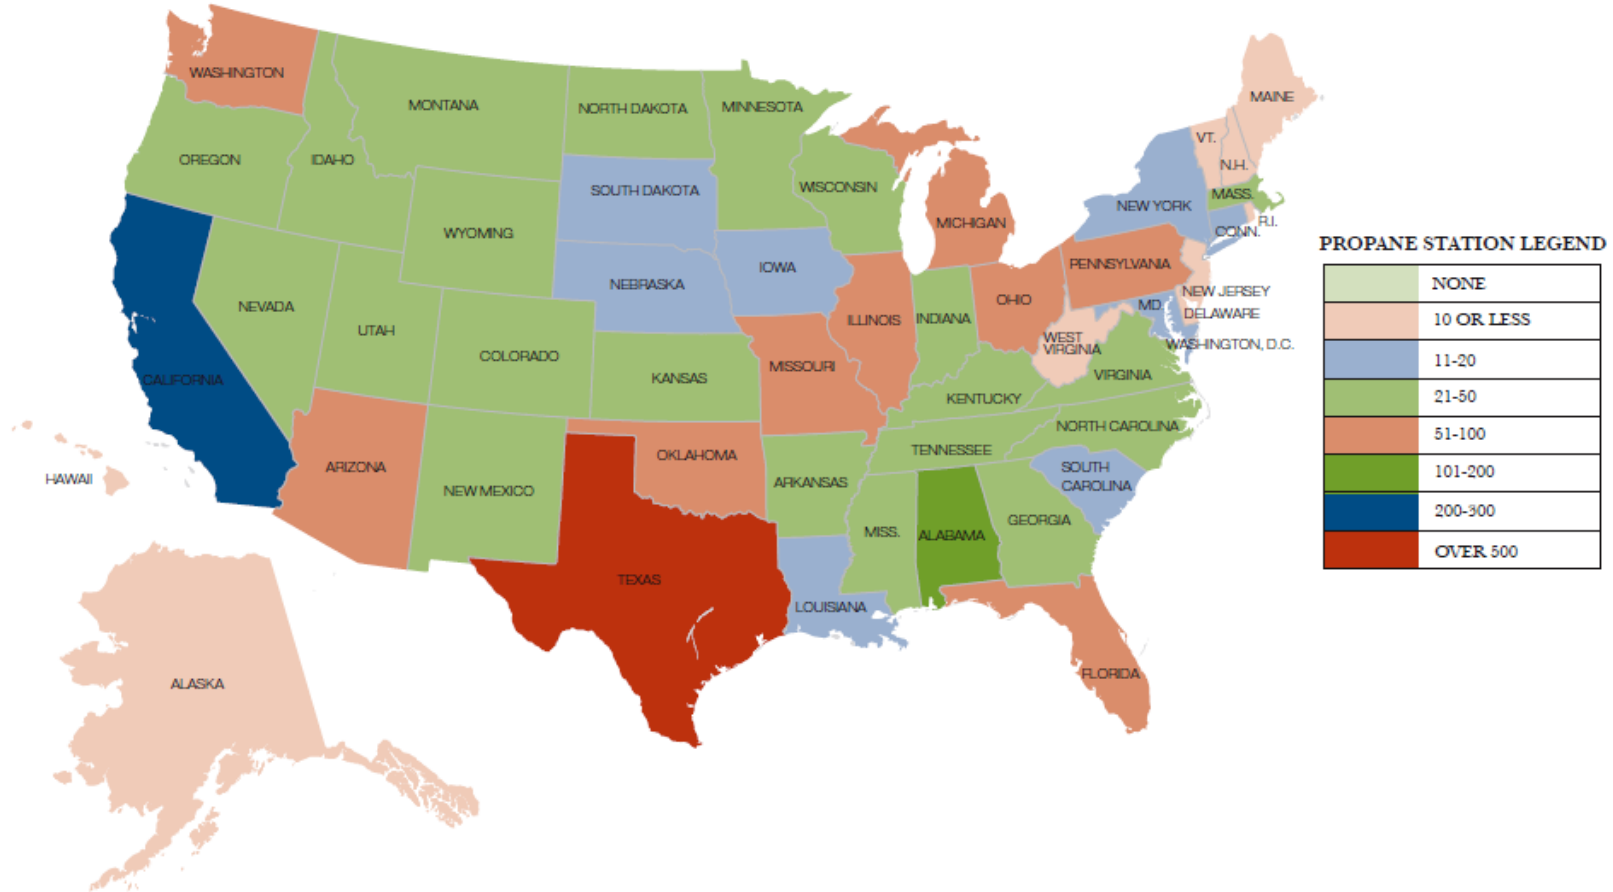

One of many clean fuel and technology alternatives, Autogas is a proven, readily available fuel with a solid value equation.

Autogas can increase America's energy independence and sustainable transportation technologies *right now*.

# Turnkey Autogas Solution

---

# Autogas in the United States

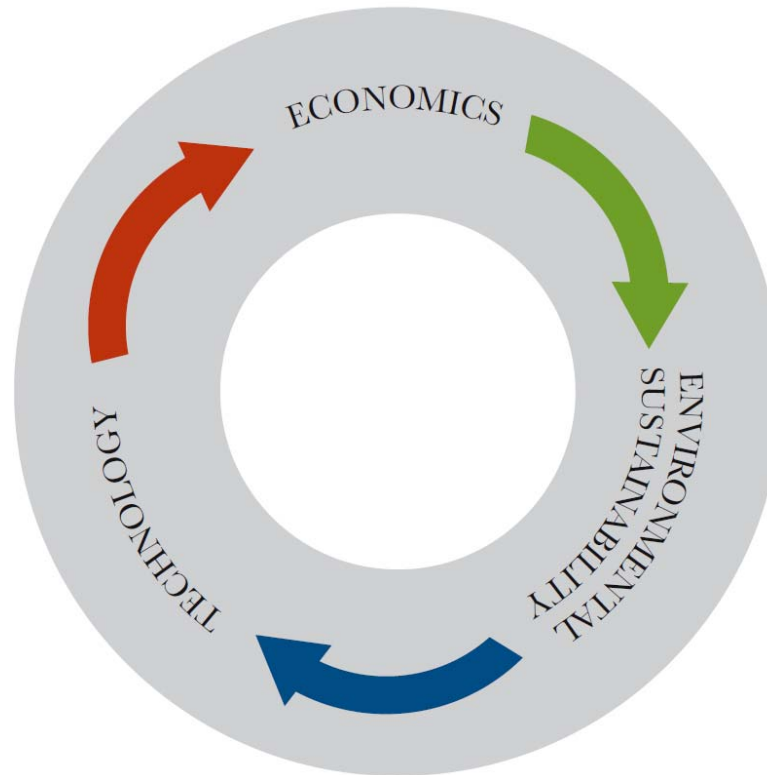

---

The U.S. lags far behind the international community in adopting Autogas vehicle fuel – our country drives less than 2 percent of the world’s 14+ million Autogas vehicles.
